

## MINES AND MINING STOCKS = FINANCIAL AND COMMERCIAL

## **BULLION-BECK** MEETING HELD

Old Officers and Directors to Serve Another Year.

-

down to business. The process is not a dry one, as generally supposed, and Manager Farnsworth says the combination is sanguine of its ability to treat the ore, of which there are 75,000 tons now at the surface, and carrying from \$8 to \$10 in silver, lead and gold, at a very handsome profit. The Peck com-bination agrees to handle not less than 6,000 tons per month and to work up all the ore on the dump and the 150,000 tons

"With the mill in successful opera-tion and the first-class ore which will be mined by the leasers and the company, the latter from new ground, the company ought to do very well before the year is over.'

#### BONANZA AT GRASS ROOTS.

Additional News From the Pioche-Nevada Consolidated Property.

resident J. W. Burton of the Pioche

Nevada Consolidation of the Pioche Nevada Consolidation with the Pioche Nevada Consolidation of the Pioche Nevada Consoli

found in all of the ore in greater or squantity."

Judge Burton says that there is no me to doubt that the North Star ledge the very same which has made all the chest mines of the camp, and just as on as it is possible to get equipment to the ground and make room for men work, the output can aud will be raply increased. He is confident that he disa associates have in their property e making of as big or a bigger bonza than Pidehe ever boasted of, and declares that every dollar to do it let be taken from the ground itself.

#### FAITH IN UTAH OIL FIELDS.

Guffey & Galey Elated at News Fron Farmington District.

Farmington District.

S. V. Shelp, manager of the Walker Brothers' big mercantile establishment, is back at his desk after a short business trip east. During his absence Mr. Shelp visited Pittsburg and held several conferences with Mess-s. Guffey & Galey, the big oil operators, and for whose syndicate here he is trustee.

"They are very sanguine of the result of their operations in the Farmington field," said he, "and while personally they were not particularly anxious to see the enterprise incorporated just now, I received their consent to form a company, and action in the matter will most likely be taken during the next few days. The name of the company, the amount at which it will be capitalized, and other details, will not be deedled upon until the various interests have been consulted.

"Mess-s Guffey & Galey have the utmost confidence in Mr. Rumbaugh, and they told me that they had never gone into a new field where all the conditions were so favorable as they fire at Farmington. Mr. Rumbaugh keeps them thoroughly posted and every letter they receive from him adds to their elation over the prospect of hitting it big.

"I learned of considerable inquiry for news concerning the Utah field, but my time was so limited and my, business such that I did not try to get in touch with the element seeking information."

In the east, Mr. Shelp says, there is an undercurrent of fear that is causing the financial world to move with great caution. The depreciation of stocks of all descriptions has hit the speculative, wild-catting element pretty hard, but everybody realizes that securities are now nearer their real value than they have been in a long time. When the situation is analyzed it is found that the coun-

try is in a strong financial position and that the future is full of promise. All through the middle west, Mr. Shelp says, the greatest prosperity prevails. Everybody has money and everything produced is bringing good prices.

Interest in the Smoot case overshadows all other subjects of general comment and to dodge the interviewer who happened to learn that Mr. Shelp was from the land of the Saints was one of the hardest tasks he had during the last few days previous to his starting home.

#### LIKES TONOPAH COUNTRY.

in Driving Tunnel For Main Ledge.

In the main tunnel of the South Columbus company, operating at Alta, a fissure containing about eighteen inches of nice copper ore was struck last Friday night. The ledge was tapped at a distance of 320 feet from the tunnel's mouth and from all appearances it is a spur or feeder to the main fissure, which, it is anticipated, will require another 160 feet of driving to reach. Samples of the ore reached the offices of the company yesterday, but as yet no assays have been had upon it. That it is of a good commercial grade there is no doubt at all, but its discovery will not deter the management from pushing the tunnel right along until the main vein is opened.

The importance of the strike lies in the in Driving Tunnel For Main Ledge.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$72,100 as follows: Sil-yer, lead, gold and copper ores, \$46,600; base bullion, \$25,500.

Metal Market. Silver, 57%c per ounce. Copper, 11½c; New York, 12¼c to 12½c. Lead, \$3.50; New York, \$4.60 to \$4.65.

Mining Notes.

The Tetro company had three cars of nice ore on the market yesterday.

Silver was quoted at 57% per ounce yesterday, as against 57% at the close of last week.

Superintendent Raddatz was in from value, \$1,270,000.

per cent lead and 155 ounces silver per ton.

President F. H. Buhl and General Manager Walter G. Filer returned vesterday morning from a trip to the Twin Fails company's big land and irrigation proposition in Idaho. Mr. Buhl hopes to find time to visit the Honerine previous to his departure for the east. He was very much pleased with the manner in which the Twin Fails enterprise is developing, as he is with both the Annie Laurie and Honerine mining properties, in which he is so largely interested.

The Copper Belt company has the last engine to go over the grade recovered and the active hauling of ore from all the properties will be inaugurated again today. Since Saturday one locomotive has been kept busy hauling to the Utah Copper company's big mill and the prospects of its going into regular commission during the present week are quite promising. General Manager D. C. Jackling and Superintendent Frank Janney went out to camp yesterday and it is presumed that the warming up of the plant will begin within the next few hours.

## MARKET STILL UNDER STRAIN

Decision in the Merger Case A Not Handed Down.

DOUBT AND UNCERTAINTY

the general conviction that the supreme court would hand down its decision today in the Northern Securities case.

This supposition extended as far as London, and affected Americans there before our opening. Apparently the expectation was multiple before the supposition of the s pectation was modified before the supermeter of the supermeter court assembled and the early declines were pretty generally recovered. When it was definitely amounced that the decision would not come today the market relapsed into a degree of set in. Northern Securities itself was forced down nearly two points in the curb market and that railied when the further delay in the case became known. The further period of waiting and suspense thus involved.

further delay in the case became known. The further period of waiting and suspense thus involved disgusted operators of all classes, and they refrained almost entirely from doing any thing in the market. Foreign farkets reflected additional discouragement on this market. The relief afforded by the successful Paris settlement gave way to renewed anxiety over the beginning of the London settlement. The mining department was hurt by liquidation from the continued uneasiness there.

The bitterness of the conflict for freight traffic gives added importance to the tone of the freight officials reports of current traffic, which is of some discouragement over the lightness of progress toward clearing up freight congestion, due to weather obstacles. The policy of continued heavy borrowings by rallroads, indicated by the loan expansion in the Saturday bank statement, thus comes in for additional criticism. An outlay of capital avowedly designed to accommodate the heavy rate of demand upon facilities established by last year's business has its wisdom called in question by reason of the undeniable shrinkage in that rate of business. It is taken for granted that the note issues on which these railroad notes is due to the prospect that they comparatively high interest rate exacted by bankers on these railroad notes is due to the prospect that the comparatively high interest rate exacted by bankers on these railroad notes is due to the prospect that the comparatively high interest rate exacted by bankers on these railroad notes is due to the prospect that the comparatively high interest rate exacted by bankers on these railroad notes is due to the prospect that the comparatively high interest rate exacted by bankers on these railroad notes is due to the prospect that the comparatively high interest rate exacted by bankers on these railroad notes is due to the prospect that the comparatively high interest rate exacted by bankers on these railroad notes is due to the prospect that the comparatively high interest rate exacted by

#### GRAIN AND PROVISIONS.

200 88

88

In view of the extreme weakness in wheat, the corn market held remarkably steady. May opened 1/60½ lower to a shade higher at 53½ to 53%, and after selling between 53% and 51½624½ closed at 53½653%. July ranged between 51% and 52%, closing at a loss of ½6½ at 51½651%. Local receipts were 182 cars, four of contract grade.

Oats were independently strong, owing to an active demand with apparently little desire to sell on the part of the majority of traders. The close was firm, although much of the advance was lost. May opened unchanged to ½ lower at 41½641½, sold between 41½ and 42%, and closed at 42½. July ranged between 33% and dois, closing 1/60½ higher at 33%/6 33%. Local receipts, 256 cars.

A small run of bogs, with higher prices at the yards, caused early firmness in provisions, with small advances throughout the list. Outsiders were free sellers on the advance, resulting in a weaker tone. The break in wheat caused further liquidation late in the day and additional losses were sustained. The close was weak with May pork 30 lower at 12,57½. May lard was off 10 at 7,30, and ribs 7½610 at 7,17½67.20.

The leading futures ranged as follows:

Coffee and Sugar.

Coffee and Sugar.

New York, March. 7.—Coffee—Spot steady. The coffee futures market opened steady at an advance of 10 to 20 points on covering and a sprinkling of commission house buying following higher European cables and lighter Brazilian receipts both for the day and as predicted for the immediate future. Importers continued selling, however, and demand after the first wave of buying was light, so that the market before midday had begun to develop a sagsing tendency and, while steady at the close, final prices showed the net gain reduced to a matter of 5 to 10 points. Sales were reported of 60,000 bags, including May at 5.5465.55; July 5.7065.55; August, 5.90; September, 5.5506.00; October, 6.05; November, 6.15, and December, 6.2568.30. Sugar—Raw firm; fair rertining, 2 1-5-16; centrifugal 36 test, 3 7-16; molasses sugar, 2 11-18. Refined firm; No. 6, 4.20; No. 11, 2.85; No. 12, 3.90; No. 16, 4.90; No. 11, 2.85; No. 12, 3.90; No. 16, 3.55; No. 14, 2.89; confectioners' A, 4.45; mould A, 4.95; cut loaf, 5.30; crushed, 5.30; powdered, 4.70; granulated, 4.60; cubes, 4.85.

Metal Market.

28 6d to £123 178 6d in London, but futures there were unchanged at £124 5s, and the local market also was quict at recent prices, or 28.00628.25 for the spot position.

Copper was 28 6d lower in London at £55 178 6d for spot and £55 178 6d for futures. Locally copper is quiet; lake is quoted at 12.50612.75; electrolytic and casting at 12.372/2012.6215.

Lead advanced is 3d to £12 in London and remained unchanged in New York at 4.6064.65.

Spetter was unchanged locally at 5.650 5.15, but advanced 28 6d in London to £22 5d.
